Colliers

Mid-Pinellas Logistics Center

9950 28th Street North | Pinellas Park, FL 33782

Up to 110,700 SF
Available for Lease

Ready for occupancy in 2023

Strategically located in the heart of
the most densely populated county
in the entire state of Florida.

Progress Update as of 10/17/2023

Building Specifications

Building Type:	Rear-load
Office:	1,950 SF
Clear Height:	32'
Building Dimensions:	225' depth x 459' length
Column Spacing:	54' x 55' (End Caps: 67.5' x 55')
Speed Bay:	60'
Slab Thickness:	6" reinforced with #3s @ 18" OCEW
Roof:	60-mil TPO & R-25 insulation
Power:	2000A 277/480V Main with ability to add another 2000A 277/480V Main
Lighting:	LED on motion sensors (25 FC on 15' whips)
Fire Protection:	ESFR
Dock-High Loading:	18 dock-high doors (9' x 10')
Drive-In Ramps:	2 drive-in ramps (14' x 16')
Pit Levelers:	3 x 40,000 lbs mechanical levelers
Truck Court Depth:	130'/185'
Trailer Parking:	14 spaces (1.26/10,000 ratio)
Auto Parking:	152 spaces (1.37/1,000 ratio)

110,700 SF

Infrastructure Improvements Underway

Gateway Expressway Project

As the most densely populated county in the state of Florida, Pinellas County began the \$595M Gateway Expressway Project in 2017 which will provide better connectivity throughout the county by creating two new elevated tollways between US Highway 19 and I-275, as well as the Bayside Bridge and I-275. The project component along I-275 includes the design and construction of one tolled express lane in each direction (one northbound and one southbound) from south of Gandy Boulevard to north of 4th Street North. The new express lanes are in addition to existing general purpose (non-tolled) lanes.

SR 690 will be a new 4-lane tolled expressway connection from US 19 to west of I-275. The tolling will be “static,” meaning the cost will remain the same at all hours. SR 686A will be a new 4 lane elevated tolled (static) expressway from the Bayside Bridge (CR 611) to just west of I-275. Completion is slated for Q2 2023.

Howard Frankland Bridge

Florida Department of Transportation (FDOT) is rebuilding the existing northbound bridge, which was originally constructed in 1959, and adding capacity to alleviate traffic congestion.

As one of the primary connectors between Hillsborough and Pinellas County, the Howard Frankland Bridge (I-275) is undergoing a \$865M redesign, which will expand the south-bound bridge to allow for eight lanes. Completion is slated for Q4 2025.

New design benefits include:

- Improvement of incident management in emergency responses
- Hurricane evacuation plans to utilize all lanes
- Improved operations of Express Bus Service
- Includes a bicycle/pedestrian trail
- Future light rail designs
- Additional express lanes
